

Northwind Logistics — Q2 2024 Operations Report

This report summarizes regional shipment performance for the second quarter of 2024. Overall shipment volume grew 8.4% quarter over quarter, driven primarily by the West and South regions. On-time delivery held above target in every region except the Northeast, where a warehouse migration temporarily reduced throughput.

Regional performance is broken out in the table below.

Region	Shipments	On-Time %	Revenue (\$M)
Northwest	128,400	97.2%	14.6
West	204,910	98.1%	23.9
South	176,220	96.8%	19.4
Northeast	92,180	89.3%	11.2
Total	601,710	95.9%	69.1

Action items: (1) complete the Northeast warehouse migration by July 15; (2) reallocate two delivery routes from Northwest to West to match demand; (3) review carrier contracts ahead of the Q3 peak season.
